

October 26, 2007

Dear Film Enthusiasts,

We are pleased to announce the first annual *Cinema Vita Film Festival---Films for Life*. The festival is dedicated to encouraging emerging filmmakers and showcasing movies recognizing the deep significance of human life.

We have devoted two categories to high school and college students. Please let your students know about this unique event. The production of a three-to-five minute film will be fun and easy for your film students!

Schools can help by ---

- Sending this information to their film classes.
- Encouraging teachers to participate.
- Personally asking gifted and committed students to submit a film.
- Adding our Film Festival link www.cinemavita.org to your website.
- Adding our deadlines to your school calendar.
- Becoming a festival sponsor.

Why submit a film to *Cinema Vita*?

- Be recognized for excellent film design and production.
- Win cash awards of \$250 plus other prizes.
- Express your views on life issues of the day: cloning, genetic engineering, euthanasia, the dignity of the human person and the future of our society.

Attached you will find (1) Save the Date Flyer, (2) Festival Information, (3) Festival Timetable, (4) Submission Guidelines, and (5) Submission Form. The consumer of mass media is influenced by what he or she sees. Movies create culture and become a vision. Tomorrow's vision starts with your students!

Sincerely yours,

Vicki Evans
Cinema Vita Film Festival Coordinator
