

Faith and Life Activity Books

The Third Edition *Faith and Life* Activity Book activities have been updated to reflect the language changes implemented by the new translation of the Roman Missal. Blank pages have also been inserted where necessary to avoid activities from different chapters being back to back on the same page.

Because the activities themselves have not changed in substance, but just their page numbering, the following list of page numbering differences between the *Faith and Life Revised Edition* Activity Books and the *Faith and Life Third Edition* Activity Books is provided for teachers using the revised edition Teacher's Manuals with the new third edition Activity Books.
